Dear Miss Snider:

It is perfectly agreeable to me, of course, for you to issue a press release on my March 1st lecture. However, I am afraid that I do not have a copy of my manuscript suitable for circulation at this moment.

For what it is worth, I enclose a copy of a recent paper by me on the same general subject. Since this paper essentially represents a starting point for the work I shall be discussing in my lecture, it may give you sufficient indication of the subject matter for your purposes.

Very truly yours,
